Summary

Enthusiastic and self-motivated front-end developer with over 1 year of experience in agile team environments. Proven expertise in JavaScript, React.js, and Redux, with a strong foundation in web technologies. I am eager to contribute to the development of valuable products while continuously expanding my skill set. Experienced Developer with 1 year of experience in creating programs based on specific requirements. Adaptable, diligent and knowledgeable in JavaScript.

Technical Skills

Languages: JavaScript, TypeScript.

Frameworks/Libraries: React, NextJs, Redux Toolkit, Node, MongoDB and Express.
Web Technologies: HTML, CSS, Tailwind CSS, Bootstrap, SASS.
Version Control: Git/GitHub

Projects

Mystry Message
Deployed site: https://mystremessage.vercel.app/
GitHub Repo: https://github.com/Kr-dev1/Mystery-Message

- Built an anonymous messaging platform using Next.js for SSR, ensuring a smooth, secure user experience.
- Integrated MongoDB for efficient message storage and retrieval, supporting scalable performance.
- Designed a sleek, responsive UI using Tailwind CSS and Shadcn UI, resulting in a 20% increase in user engagement.

Crypto Wiki
Deployed site: http://cryptowiki.surge.sh/
GitHub Repo https://github.com/Kr-dev1/CryptoWiki

- Created a cryptocurrency tracking application with React and Firebase, allowing users to monitor real-time data and curate watchlists for top digital currencies.
- Utilized Vite for fast build times and Tailwind CSS for responsive design, improving user retention.

Experience

Associate Frontend Developer (Meyi Cloud Aug 2023 – Feb 2024)

- Spearheaded the front-end development of 'Plant 365,' a multi-tenant SaaS product, delivering a 15% increase in customer retention through a responsive UI overhaul.
- Collaborated closely with back-end developers to integrate subscription-based services, optimizing user experience for multiple tenants across various devices.
- Enhanced code quality by implementing best practices in React.js and establishing a scalable component structure.

Freelance Web Developer (Feb 2023 – Aug 2023)

- Developed and deployed high-quality client websites using modern frameworks like React and Next.js, achieving 100% client satisfaction.
- Focused on optimizing performance, reducing load times by up to 25% across several client sites.

Education
